Im working out how the look on your face says it all
The look on your face says why must you drive your car
like a madman
And the answer is because I can
And he's walking around with his brain switched off
Yelling out of windows at girls on the street
The look on your face says Im going to believe you
Im going to believe
Im going to believe you
Yeah Im working out a rough idea
The name and place does it all
The look on your face says the main part of me was
yours for the taking
For the taking
For the taking
Names filter through
And the look on his face says it all
It says the bigger you think you are the harder you fall
The harder you fall
The harder you fall
The bigger you are, the bigger you are
The harder you fall, the harder you fall
If you can't hear yourself think it's not such a bad thing
A bad day or two don't fix it
Its if the belief it's the function
And the function is belief, you're cold
You don't need to spend your life trying to make
yourself at home
Its if the belief it's the function
And the function is belief, you're cold
You don't need to spend your life trying to make
yourself at home
Make yourself at home
