These pictures remind me  
Of something else entirely  
It's frightening  
There's a hole in the sky  
I thought i saw something living here before  
But i was wrong  
Just smoke in my eyes  
You can have complete control  
You can have the upper hand  
Execute your master plan  
You can..  
You can burn this skin  
Try to find something else therein  
I'll let you win (x2)  
You can choose how we go  
You can have complete control  
But after this, it's no longer growth  
No nothing  
No better  
No such thing (x3)  
Long enough  
I was there long enough  
I was there long enough to do some damage (x2)  
You can have complete control  
You can choose how we go  
But after this, it's no longer growth  
Growth (x3)
