I saved you the trouble  
It was easy  
I was dreaming of arrows  
Following each other around  
In a dance over water  
It was easy, it was great, i'll see you later  
I read the sub-titles  
Some trouble with water  
And a rescue out at sea  
And i got thinking  
It's never a golden age until past tense kicks in  
And it's a mess that we're in  
Can i say that  
1 2 3 4  
Easy (x4)  
I saved you the trouble  
It was easy  
I was dreaming of arrows  
Following each other around  
In a dance over water  
It was easy, it was great, i'll see you later
