

## Something Corporate

### "Glass Timing"

Visit "[Glass Timing](#)" on MotoLyrics.com

Somebody make my mind up for me  
Decisions will only put me to sleep  
And in my sleep more decisions come to me  
And i'll never be free  
I'll never be where i want to be (x2)  
You never forget (x2)  
But you'll never have it back  
You should have thought of that (x2)  
How can i think when everything's in front of me  
I've got so much in front of me  
How can i think when everything's in front of me  
I've got so much in front of me  
But everything i want is history  
Everything i want is history  
History  
It's just bad timing (x2)  
Somebody make my mind up for me  
Decisions will only put me to sleep  
And in my sleep she'll just smile at me  
And i'll never be  
I'll never be  
I'll never be where i want to be (x4)
