"Hawaiian Robots"

Visit "[Hawaiian Robots](#)" on MotoLyrics.com

I could barely recognise myself sitting here, for
question
I was trying to guess my name and my favourite colour
But your guess is as goos as mine
We had an idea, a brilliant idea
Washed in fluorescent light
But the light here was good and i can taste the food
And i'm better off, i'm better off
I'm better off as a robot, I'm better off in hawaii (x4)
I could barely recognise myself sitting there,
occupations
I was trying to work out who was you and who was me
And how this happened
I got an idea, a brilliant idea
Hiding in my boat somewhere
I'll be writing in the sand with a battery in my hand
To keep them goin, and I'll be better off
I'm better off as a robot, I'm better off in Hawaii (x4)
