(This goes out to the radio stations going out to you...)

Lucy, I've confessions  
I don't think you ought to know  
Let's just sit back  
Forget about what's past  
You see my longs are wet with age  
Beyond what I can show  
This is the first time  
It's not the last  
it's not the last

And it's been long since i've moved  
Long since I've grooved on  
And now my empty chorus falls on empty ears  
Since I left LA days ago  
The concert made me crave the shows  
And times when I could be more cavalier

Don't you look away too long  
You see I've got something you might need  
Don't look away too long  
I said you may not believe and I just may concede

Holding onto what is right  
The truth escaped me twice last night  
In clouds of smoke and scattered ash  
With visions of an empty hall

While wiggers crowd the shopping malls  
And overzealous DJ's that ghetto blasted rap

Don't you look away too long  
You see I've got something you might need  
Don't look away too long  
I said you may not believe and I just may concede  
hey..

(Chicka uh)

Lucy, I've confessions I dont think you want to know  
let's just sit back

forget about what's past  
you see there are places that we shouldn't go  
and not so fast

Don't you look away too long  
You see I've got something you might need  
Don't look away too long  
I said you may not believe and I just may concede  
don't don't don't don't  
look away too long  
You see I've got something you might need  
Don't look away too long  
I said you may not believe and I just may concede
