"Seasick"

Visit "[Seasick](#)" on MotoLyrics.com

You make it look so easy
You seem to fit inside your own skull so comfortably
But i haven't been myself lately
And thank you
The pressure has been all mine
As i wait for my pulse to catch up with me

If i could leave here today then i would
If i could change my face and my name then i would
If i could run to some technicolour place then i would
If i could learn from my mistakes then i would

The lights come back on
And what has my imagination done for me lately
I sit in this chair
Concentrating on a crack in the ceiling
And thank you, thank you
The pressure has been all mine
As i wait for my pulse to catch up with me

If i could see with your eyes then i would

(repeat first chorus)

You make it look so easy
You make me
Seasick

If i could leave here today then i would
If i could run then i would
If i could learn then i would
If i could fly then i would
