You're not the first to think  
that everything has been thought before  
I spoke to an echo and he said  
I'm not satisfied, I want something more

'cause I am bored with three dimensions  
I'm in love with three dimensions  
and if I listen to the seconds  
it reminds me of, echololia

what now?  
fragments are found  
in the mess and in the sound

'cause I am bored with three dimensions  
I'm in love with three dimensions  
and if I listen to the seconds  
reminds me of, echololia

you're not the first to think x2  
that I am bored with three dimensions  
I'm in love with three dimensions  
and if I listen to the seconds  
reminds me of, echololia

echololia x4
