"Blueprint Architecture"

Standing in the semi darkness like your only half there
From shadow to silhouette to someone
Just a laugh on the way

Never mind these things I tried to say
Coz bridges built are burning just the same
And there's no way, and there's no way to understand
the architecture
How you opened yourself
Whatever, whatever mental picture fits the blueprint
you felt

Never mind this talk of who's to blame
Bridges built will burn down just the same
The mess we've made, the mess we've made
The mess we've made

And now he knows my every move
Every paralyzed idea
This sorry song now is the only thing that I can hear
And you've been holding on to anything you can
Closer now, as further down, with every step you take
in quicksand

So never mind these things I tried to say
Coz bridges built are burning burning just the same
And there's no way out of the mess we've made
Yeah the mess we've made
