Visit "[Old Pictures](#)" on [MotoLyrics.com](https://MotoLyrics.com)

let these pages fly away  
flagpoles in the sun  
same saturday  
and reflected off a window is where you'll stay  
where you'll stay

i turned you in  
i turned you into whispers  
i turned you in  
i turned you into old pictures

i build you out of nothing to have you near  
i remembered you on trains  
so now you're on every train i hear  
(repeat chorus)

i wished that you were gone  
so you're gone

(repeat first verse)

(repeat chorus)
