Lights go out, half past day  
Insects come out to play  
It's this heat, it makes everybody crazy

Through the void weightless drifting  
Windows down, volume blasting  
One by one, a memory

Ohhhhh, ohhhhh,  
Folded page, friendly fire  
All this talk wrapped in wire  
Yeah I know something you don't know  
They say you look different  
I say I've seen different  
It's clear in my mind as it's ever been

One eye always on you  
One eye always on the door  
One eye always on you  
One eye always on the door

You looked at the ground  
We're trapped and can't get out  
Nervous by yourself  
Take these things and keep them  
Sing to them and keep them

One eye always on you  
One eye always on the door, on the door  
One eye always on you  
One eye always on the door, on the door
