You're not the first to think that everything has been
thought before

I spoke to an echo and he said
'I?m not satisfied, I want something more'
cos i am bored with three dimensions
I?m in love with three dimensions
and if I listen to the seconds
reminds me of echolalia

what now, fragments are found
in the mess and in the sound

'cos I am bored with three dimensions
I?m in love with three dimensions
and if I listen to the seconds
reminds me of echola la la la la la la..lia

you're not the first to thinkx2
that I am bored with three dimensions
I?m in love with three dimensions
and if I listen to the seconds
reminds me of echolalalalia
