

Trucker Diablo

"Voodoo"

Visit "[Voodoo](#)" on MotoLyrics.com

You gonna make me love you
You gonna cry me a river
You gonna take my heart and break it
Push me down and watch me bleed
All this love is wasted
All this love between you and me

You gonna break my heart break my heart with voodoo
You gonna break my heart break my heart in two (x2)

You gonna make me love you
You gonna cry me a river
You gonna take my heart and break it
Push me down and watch me bleed
All this love is wasted
All this love between you and me

You gonna break my heart break my heart with voodoo
You gonna break my heart break my heart in two (x2)

Take your little needle and your razor blade
Say the words cast the spell your in my grave
Take your little needle and your razorblade with
voodoo (x2)

You gonna break my heart break my heart with voodoo
You gonna break my heart break my heart in two (x2)

With your voodoo baby
