If I could take one more
Of all the worst from you
And as I fell
I push this all away

Get up off this floor
And give it back to you

[chorus]
I know you want it to
Take me...

I know you tried to take me out
I won't forget you
I watched you fall apart
It's over now
It's the end
I hear the words that you spit out
I can see right through you
I watched you fall apart
It's over now
[/chorus]

If I could see you now
And push the worst in you
And as I stood I pull this all away

If I could show you how
Cuz I rememeber you

[chorus /]
