[intro] vocoder

This is a S. Original Production

[verse]

I think 'bout stupid things for a moment or two
Things like why I thought I fell in love with you

It's stupid, but it got me going crazy
Think I'm stupid bitch? I know you fuckin played me

You thought I really was gonna buy your bullshit
I might be psycho, but you know I ain't stupid

I had a heart, you taught me how to use it
But then you broke it and now you're just useless

You really thought you had me, you thought I was your
vicitm
But then I gotchu badly so the control just shifted

I'm never gonna catch you again if you're just fallin'
But don't get it twisted bitch you can still call meh

Depends on if you wanna talk or just feel horny
Call me a sick fuck but you alraedy know me
Don't forget to give me a call whenever you feel lonely
I might just forgive you, for one night only

[hook/chorus] (2x)

You are just a fuckin' useless hoe
You're this stupid slut that I used to know
I took your hands but never understood
How a dick like me could be with a hoe like you

[beat fades out]
