I need to distinguish the line  
I need to distinguish body from mind  
The end of time  
The end of time

I need to distinguish the line  
I need to distinguish body from mind  
The end of time  
The end of time

Lost at sea  
Forgetting about the world  
I'm alive today, while the planet dies  
Breathe with me  
Beginning to feel the power  
Flowing through my veins

Tearing at the seams  
And equalize the pain  
It's fluctuating, take it all away  
And just breathe  
Can't you see that it's leading me to the point of  
breaking...

Lost at sea  
Forgetting about the world  
I'm alive today, while the planet dies  
Breathe with me  
Beginning to feel the power  
Flowing through my veins
