Drifting away.
Another night and day,
A taste and a feel.
The truth concealed.
Life is overrated, it's binding my soul.
And now

The tide's been waiting for you.
These hopeless dreams are for you - -
Now looking through the eyes of the storm.
(More false hope like before!)
Just running on the dream of tomorrow.

Fade control,
Spirit dissolving beneath the skin
Closer

The tide's been waiting for you.
These hopeless dreams are for you - -
Now looking through the eyes of the storm.
(More false hope like before!)
Just running on the dream of tomorrow.
(Tomorrow!)
Now looking through the eyes of the storm!
Just running on the dream of tomorrow.

Find yourself, find myself
By yourself, by myself (These eyes)
Dead inside, dead inside
You must find, you must find (Don't hide)
You decide, you decide
By yourself, by yourself (This time)
Void inside, my demise
Start seeing, start acting (Start seeing)

These eyes
Won't hide
It's time
Start seeing!

Fight. Back!

It's all subliminal (subliminal)
And I can see it now
Don't lose control (look inside)
Let's fight this fascist regime
This is for all the unclean
The tide is waiting
So love yourself and hate me more lose control!

In time you'll find,
Inside this time,
Now you decide,
Kill what you find.
