I'm myself from the future

Spinnin', fallin' hard onto the floor

Flag my head on a whim

Blood on the universal

Blood on the universal stone

I was too high to notice

The velvet skin

Too high to notice

The velvet skin

Running from myself

My demon's awoken

Running from myself

My demon's awoken

I'm too high to notice

The velvet skin

Too high to notice

The velvet skin

Beauty's on the street, well

(Hey, hey, hey, hey)

You can never beat us

Never steal a star in a lover's eyes, yeah

Beauty's on the street, yeah

(Hey, hey, hey, hey)

They're never gonna cheat us

Never steal a star in a lover's eye, well

They sold you my volatile youth

And then used you all, all along with

Too high to notice

The velvet skin

Too high to notice

The velvet skin

Beauty's on the street, well

(Hey, hey, hey, hey)

They're never gonna beat us

Never steal a star in a lover's eye, well

Beauty's on the street, well

(Hey, hey, hey, hey)

They're never gonna cheat, cheat, cheat us

Never steal a star in a lover's eye

Never steal a star in a lover's eye, yeah

Never steal the sex from a lover's thigh

You don't get it, you'll never get it, whoa

Too high to notice

The velvet skin, oh

I'm too high to notice

The velvet skin

Beauty's on the street, yeah

(Hey, hey, hey, hey)

Yeah, they're never gonna beat us

Never steal a star in a lover's eye

Beauty's on the street, well

(Hey, hey, hey, hey)

They're never gonna cheat us

Never steal a star in lover's eye, well

(Hey, hey, hey, hey)

Beauty, beauty, beauty, beauty

Beauty, beauty, beauty, beauty, whoa

Beauty on the street, yeah

(Hey, hey, hey, hey)

Never steal a star in lover's eye, well
