Shaking your fist yeah
Do you feel like a man
Got a rock in your pocket
Got a girl by the hand

Flip the bird to the world
Because the world is your plan
Don't stand still for no one
Don't take it
Take it
Take it

All my life
I never learned
My bridge is raised
My bridges burn
And all my dreams
They faded away
My bridge is raised
My bridges burn

Hang your head til tomorrow
Look to the stars for your muse
The world's better mellow
You're judged by your shoes

Your mouth is so dirty
Since you were a kid
Rise up like a flame
Take it
Take it
Take it
Take it

All my life
I never learned
My bridge is raised
My bridges burn
And all my dreams
They faded away
My bridge is raised

My bridges burn

Don't be a zero
Be a hero
A sex pistol
Guitar hero
Don't be a zero
Be a hero
A sex pistol
Guitar hero

All my life
I never learned
My bridge is raised
My bridges burn
And all my dreams
They faded away
My bridge is raised
My bridges burn

Be a hero
A sex pistol -an ape-
Atomic bomb
