"Vigil"

I feel your warm skin
Envelope me
Like being sheltered
In you I'm free

All of this love that I feel for you
Is flowing around me and onto you
Let us surrender and hold close forever without sleep
to waste away hours together

I swear you're perfect
They made you just for me
Every waking moment
For you I try to be

Stay awake
I won't let you go my dear
Stay awake
Let's just spend the night right here

I won't let you go while my blood still flows
