Stay and I'll make you mine
It'll never be the way it was before
Now is the perfect time
To make the change and even up the score

You've been and done that
You've seen and done that
But you don't want that anymore

Against the odds we'll prevail
Against the others we won't fail
We'll pick up all the pieces and we'll fight
Against the man we won't suffer
Against the world we've got each other
We'll pick up all the pieces and we'll fight

I have a lot to give
And if you take a chance at least you'll find the truth
You have a life to live
And the only one who can make the change is you

You've been and done that
You've seen and done that
But you don't want that anymore

Against the odds we'll prevail
Against the others we won't fail
We'll pick up all the pieces and we'll fight
Against the man we won't suffer
Against the world we've got each other
We'll pick up all the pieces and we'll fight
