I'm dumbfounded I'm in denial
I'm right here where I want to be
I've caged myself in my own rite
I never ever want to let another see inside of me

Is there anybody out there
And who are you with
If this ain't business
Then what is this

Is there anybody listening
And who are you with
If this ain't business
Then what is this

What is this?
[x8]

I'm in control I've lost my soul
I'm right here where I want to be
I'm indirect and intellect
I never ever want to let another see inside of me

Is there anybody out there
And who are you with
If this ain't business
Then what is this

Is there anybody listening
And who are you with
If this ain't business
Then what is this

What is this?
[x8]

Is there anybody out there
What is this?
[x4]
