We got this cash, we got this cash
We got this cash, we got this cash
(My motivation is getting a million)
I'm stacking money, you call it your ceiling
I'm stacking money, you call it your ceiling
We got your cash on, we got your cash on
We got your cash on, we got your cash on
(We got this cash)
We got your cash on, we got your cash on
We got your cash on, we got your cash on
(We got this cash)

You act as if swag ain't gonna happen
You act as if this swag ain't gonna happened, gonna
happen
Especially when I'm doing this swagging
Especially when I'm doing this swagging
You act like you was made forward
You act like you was made forward
I've been paying dues, the niggasâ€¦ the whole..
I'm on my.. swag
Ain't worried about it, I'm looking for change
You act like you ain't talking about that cash
Especially when I've been making doctor's money..
(My motivation is to gain a million)
We got your cash on, we got your cash on
We got your cash on, we got your cash on
(We got this cash)
We got your cash on, we got your cash on
We got your cash on, we got your cash on
(We got this cash)

My motivation, you're making millions on top
Your motivation is more the hating, so stop!
I'm super swag and you're super.. and you're not!
And I'm on my thing, and I'm on this things
And you see me home and..
See youâ€¦ our destiny
CJOB that's the game
Smoke more weed than a hippie, man
Drink that gin, getâ€¦

You mother fuckers might gonna stop
And I don't give a fuck, and you dope this way
And I youâ€™ at the time

We are taking over airwaves, rolling up these airplanes
Swagging through your city and you can tell from the
smoke spring

I'm a tailor in theâ€™;

We're super cold in sunny weather

And I'm all about that beach, man!

we ain't about the beach man

So concentrate on doing,

you ain't gonna get that cash, man!

Cause I'm a tailor, ain't nothing better

We're drinking hippies and getting..

(My motivation is getting a million)

(My motivation is getting a million)

I'm stacking money, you call it your ceiling

I'm stacking money, you call it your ceiling

We got your cash on, we got your cash on

We got your cash on, we got your cash on

(We got this cash)

We got your cash on, we got your cash on

We got your cash on, we got your cash on

(We got this cash)
