I'm out of town, swagging, looking like I'm walking
vince wagon
Whip my shit nelse scarf that's dragon, might puffing
on some of this dragon
Still working, that's what happens, when you, got your
shit together
You can make anything happen, like me, ah
Stop in this tatting, and starting rappin, to me ah
Taylor ganging and peacefully snapping
To me ah, catching planes and fucking these bitches
I do my thang and I fucking but riches
Now I got my movement on smash, I ain't waiting for
nobody to pass
So I dug my foot real deep in the grass, I took off and I
passed they ass
So I, continue to keep everything genuine about shit I
say it
And I, keep skating, I ain't listening to no hating
I ain't worry bout nothing but motivation and money
chasing

[Hook]

We moving up ,we moving up, we moving up
It's going down, it's going down, it's going down
We moving up ,we moving up, we moving up
It's going down, it's going down, it's going down
We moving up ,we moving up, we moving up
It's going down, it's going down, it's going down
We moving up ,we moving up, we moving up
It's going down, it's going down, it's going down

Giggling with my money, snickering and kicking it,
Ot, killing shit, tuki's killing shit, tgod million shit

Shout out to berner in san Francisco, go dumb
