As If The World Wasn't Ending

Started a dangerous game that's not won by  
The person who made the first move  
Chose to be targeted by all those eyes  
And now, some of you think I'm a fool...

I guess I am guilty, I'm only a man  
But this world is imperfect too,  
But that just has to do...

I chose not to hear what the smart people said,  
And instead played my cards like a fool  
Every day took a chance to get caught in the fire,  
These flames do not burn like I do...

I wait in line to be hung by the neck,  
until everyone sees I'm right

I need to have my chains

Removed and hide here  
While the spotlight's seeking me...  
Forget the world for now, my Love,  
And live these days with me  
As if the world wasn't ending...

...Cheers...

Masks removed we hide here  
While the spotlight's seeking me...  
Forget the world for now, my Love,  
And live these days with me  
As if the world wasn't ending...

Take me where I cannot hear  
The people calling me...  
Pour Whisky, Brandy, Vodka...  
Come and live this night with me...  
As if the world wasn't ending...
