Lying on my bed alone
I don't wanna live my life
Already have my TV on now tell me will I see you with
me

Video or a TV show
Sitting on a beach alone
Suddenly the lights go out and there is something
wrong with me

Just in the middle of a TV show
Power went out but it tells me no
I have no money but you can't blame me
Pay your bills or you won't see her

Lying on my bed alone
I don't wanna live my life
Till you stare at TV screen it's black
And I won't see her

Video or a TV show
Sitting on a beach alone
Now with the lights gone out and there is something
wrong with me

Just in the middle of a TV show
Power went out but it tells me no
I have no money but you can't blame me
Pay your bills or you won't see her

I want her
I need her
But now I am without her
And I have never felt so alone

I beg you
I plead you
Show her and I will pay you
I am TV slave

Folks I am a TV slave

And blackout's all take it away
I'm a TV slave
And I will pay
Cause sitting here will keep me seeing you

Just in the middle of a TV show
Power went out but it tells me no
I have no money but you can't blame me
Pay your bills or you won't see her

Lying on my bed alone
I don't wanna live my life
Already have my TV on now tell me will I ever see a
movie

Video or a TV show
Sitting on a beach alone
Suddenly the lights go out and there is something
wrong with me

Just in the middle of a TV show
Power went out but it tells me no
I have no money but you can't blame me
Pay your bills or you won't see her

Just in the middle of a TV show
Power went out but it tells me no
I have no money but you can't blame me
Pay your bills or you won't see her now
