I always mediate  
For you fucking infants  
It's appropriate  
Shut your fat mouth  
Forget your good clout  
And beware

It made me nervous so I ran so fast  
It's unbelievable that I was cast  
Out like the devil  
I was straight when I met you  
Now i just don't know

It's not a charm you believe that that's true  
And I will not be fooled  
There ain't no harm in believing I'm cruel  
But I will not be fooled

Don't you investigate  
I've been feeling this way  
It's inappropriate  
Slap me baby  
Oh how you want me  
And beware  
I never cared so

Don't go back to the old residence  
All of them living there talk such shit  
All of them living there claim to have fucked in your bed  
Don't go back to the old residence

I wrote this letter with my left hand bound  
And I flew to see you when it made sense
