My angel, if you come down to earth
I want us to speak
I am waiting for you to give me advice
on how to heal a heart that hemorrhages.

My angel, it has a wound which will not heal
it is a miracle it is still alive
it has a deep wound and the blade is sharp
it is filled with poison and love.

My angel, I have one favor to ask you
let me find an answer to my conundrum, in my dream
heal my heart if you can
with a tear from the depths of my soul.
And if you save it i will promise you a prayer
to my god, so he may bless you
to become the governor of the angels
and for you to find a throne in heaven!
