Two years away so
Down in the same soul
I've had nothing but blackness
Penning inside your head
Making you're always going to be dead

No one's going to have fun
Yellow what I say
Afraid of your eyes you used to doubt
Just a picture, picture, picture
Then you come and whisper, saying
"Who's going to be next to you tomorrow?
Tomorrow?"

Feel just one day within your hand
You make me better
You make me better today
Try to say to your debt
Open up and try that again
Pull out everything was ??? today
Eventually is so exciting
But it's me who's saying
Who's going to caterpillar
And hey, ??? dance
And hey, take inside
Worried about the same thing
Good imitation
Watching the chair with the spider's going on
The music's so loud I could scream
And everyone says
She's such a fine body
Can you see her eyes, she knows she's real
Could you see my eyes from the right place
Make me safe from the ??? real
Make me safe from your kind of face
Taking it sideways from
This is so many hours

So many days
So many years
This is time
It's just this time
And you can believe anything
This is just repeating
Can't even sing
Not all the other men
Can't even sing

I could see you burst away
You just want to ???

(Thank you, good night)
