There she goes again,
Is my chance to tell her what I've been holding inside
Intimidation kept me quiet,
Now I'm breaking the silence
From the beginning kept the grinning,
And she decided I'm just a friend then
Now, I'm losing my mind!

Chorus:

She don't even know how she makes me feel
She don't even know our love is real
I could change her world if she let me in
I'm in love with my best friend,
And she don't even know!
Uh, uh, uh

Another late night conversation
Saying, waiting, for the perfect guy to show you your
real love
I think you're incredible, a part of me is invisible
What can I do to prove to you I'm everything you want?
(Cause it's just too hard to fight, fight)
The way I love her fragrance
Uh, and even more her smile, uh
My heart she's taken, uh
I make her mine if I

I only had the courage
But if I risk it of will I lose the one I love?

Chorus:

She don't even know how she makes me feel
She don't even know our love is real
I could change her world if she let me in
I'm in love with my best friend,
And she don't even know!

Some things that are... inside
Gotta let her know tonight
I just wanna love her right
This is undeniable

I can't take no more!

Chorus:

She don't even know how she makes me feel

She don't even know our love is real

I could change her world if she let me in

I'm in love with my best friend,

And she don't even know!

She don't even know

She don't even know

She don't even know

Oh baby, baby!

She don't even know, uh, uh

She don't even know, uh, uh

I can change her world, yeah!
