All being there for an quiet reason
Fill the stain with some gain of research
What pain I can't even feel, what others does

It's coming at for me it's braggin of my breath ahaaaa
Seeking for being nothing in the blind ahaaaa
Stop it loud you could dry in vain they said
Scream all u want suddenly I said
Escence or not the cover of the note ahaaaa

In times of war, in times when you can't
Cooperate, denegate, just do your way
Don't be late just state what you said
Show it out, expose the lie, do what you have x2

Turn around and fate will turn against you
Come get a bit of the nasty sick world

Coming from a leaf, whisper of a thief ahaaaa
Singing loud, the best song, give yourself life ahaaaa
Be part of us they allways said
Don't try to control what you can't I said
Don't waste your time I got reasons now ahaaaa

Can we liveeeee such a preaceful thing?
Can we stay at the main reasons we aspire
Can we let this morphing thing consume us
Some of us are in need to care the ground
Do you ever listen to the most despite
Shut it off, cut the line, break up now

In times of war, in times when you can't
Cooperate, denegate, just do your way
Don't be late just state what you said
Show it out, expose the lie, do what you have x2

Give your self a chance
