I'm burning u-u-u-u-uh-uh-uh-up

Baby I can't figure you out  
Since I meet you my whole world came crashing down  
I can tell that you where in doubt  
But my heart tells me that I should hold on now.

I hate to see you walk away  
Things need to change  
I think about it every day  
You turn me into flames

I'm burning u-u-u-u-uh-uh-up  
You got to let it go-oh-oh-oh-ohh  
Just make it sto-o-o-o-o-o-op  
You got to let it go (let it go)  
Let it go, let it go right now

Ey-ey-ey-ey-ey it's okay  
Ey-ey-ey-ey-ey babe you blow me away  
Check your boom baby you know that I'm missing you  
It ain't cool got confused  
I kinda like you but don't know what you want to do (let  
it go)  
I'll give you the world, hey baby you can be my favorite  
girl  
We can make it click, ask Akon you're my sexy chick

I hate to see you walk away  
Things need to change  
I think about it every day  
You turn me into flames

I'm burning u-u-u-u-uh-uh-up  
You got to let it go-oh-oh-oh-ohh  
Just make it sto-o-o-o-o-o-op  
You got to let it go (let it go)  
Let it go, let it go right now

Bah-bah-bah-bahda boom bahda bing waiting on life  
for you "ding ding"

When I'm all alone I need you like I need my iPhone  
When I'm all alone I need you you you like my my  
iPhone  
When I'm all alone I need you

I'm burning u-u-u-u-uh-uh-up  
You got to let it go-oh-oh-oh-ohh  
Just make it sto-o-o-o-o-o-op  
You got to let it go (let it go)  
Let it go, let it go right now

Just let it go...

Ey-ey-ey-ey-ey it's okay  
Let it go, let it go  
Babe you blow me away  
Got to let it go  
Got to let it go  
Let it go right now
