### "STRONG HORSE"

Visit "[STRONG HORSE](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Right around the corner where our money's spent  
inside the great white establishment  
where the rules are bent

I think the wheels are stuck,  
we need a strong horse  
to pull our carriage out,  
out of this rut

Our heels are dragging time is standing still  
they've left us living off the pickings  
from the landfill

I think the wheels are stuck...  
We need a strong horse,  
a straight back and sure foot  
to lift us away up out of this rut

So awake little Britain,  
and arise I'm so sick of being put down  
I feel like I've been vandalised,  
schoolrooms are bursting with our wasted youth  
feels like you're doing something shameful  
when you tell the truth
