Say goodbye, to the world we used to share
Say goodbye, to the fools that did not kiss
Say goodbye, my friend just let yourself go
In your arms, oh I will find myself again
By your side, there's still a moment to defend
And I wont stay, right here
Until it ends

When you go I'll go with you
Around the sun across the moon
When you fall from your sky
I'll be falling too
When you're stuck in in between
What you got and what you dream
And when you're flat on your back
And you can't come clean
I'll give you solace, I will

There's a place, where all the madness disappears
And you can stay, yeah you can swallow all your tears
And you can breathe, once more
Your first breath of air
Just say goodbye, my friend
I'll see you there

When you go I'll go with you
Around the sun across the moon
When you fall from your sky
I'll be falling too
When you're stuck in in between
What you got and what you dream
And when you're flat on your back
And you can't come clean
I'll give you solace

Wherever you're fallin, I'll be fallin
I'll give you solace

There is hope that never fades
I can see it in your eyes
There's a song that just keeps playing

So let's bring it on tonight
We could make it through, if you want me too

When you go I'll go with you
Around the sun across the moon
When you fall from your sky
I'll be falling too
When you're stuck in in between
What you got and what you dream
And when you're flat on your back
And you can't come clean
I'll give you solace, I will
