"You say it's solid poetry  
Its what you want to see  
Some sensuality  
When you cry, I just can't prove you wrong  
No I just play along  
I guess it turns you on  
The games we play  
The shows we give  
The hearts we break  
We live through this  
The games we play  
Do right, it's getting critical  
Are we too cynical  
Could use a miracle  
The games we play  
The shows we give  
My heart you break  
I live through this the games we play  
The games we play  
The rules we make  
Like secret codes, we can't escape  
The games we play  
You say there really is no doubt  
We just can't do without  
The games we play  
The shows we give  
The hearts we break  
We live through this  
The games we play  
The rules we bend  
With lovers lust, we will defend  
The games we play  
You say it's solid poetry
