If we had time to start all over
The time to make things last
If we grew young instead of older
If we could redecorate the past
If we could stop this world from falling
With one *silver* little phrase
Breathe in light and oxygen
Within this empty space
Would you love me?
Would you love me, baby?

What if?
What if?
Would it matter to you baby
Would you love me anyway?
What if?
What if?

We have time for a new beginning
The time to rise again
If our love was young and winning
And the movement worth to defend
If we could find a new destination
Well would it make a change?
Would you love me?
Would you love me, baby?

What if?
What if?
Would it make a difference to you
Would you love me anyway?
What if?
What if?

We could find a new solution
A way back to the start
When every kiss was evolution
And we only played by heart
What if?

What if?

What if?
I can still remember baby how you used to sing

We will never fade away
We will never fade away
What if
We will never fade away
What if ...
We will never fade away ...
