(Harding / Curnow / Imrie)

Even though we may be miles apart
your name's still written on my heart
Gets hard with every passing day
I feel so lonely when you're far away

Love is the one thing that we need
Everyone holds the key
so don't stop believing

Just a little love each and every day
Just a little love for when you go away
That's all it takes
Just a little love to last forever
keeping us together

If only I could get a message through
to say how I've been wanting you
You said you loved me and we made a vow
Wishing you were here beside me now

Love is the one thing that we need
Everyone holds the key
so don't stop believing

Just a little love each and every day
Just a little love for when you go away
That's all it takes
Just a little love to last forever
keeping us together

Just a little love each and every day
Just a little love for when you go away
That's all it takes
Just a little love to last forever
keeping us together

The love that we share
will always be there
and it grows stronger and stronger

With hope in our hearts
Let fate play a part
So don't stop believing, never stop believing

Just a little love each and every day
Just a little love for when you go away
That's all it takes
Just a little love to last forever
keeping us together
