Ooh don't let love get you down  
get down, get down

I know that you've been hurt by love, once before  
you said that you didn't wanna be loved no more  
Just don't sit around, feeling sorry for yourself  
just give your love, to somebody else

Ooh, wow don't let love get you down  
Ooh, wow don't let love get you down  
get down, get down

Dry up those tears, and hold your head up high  
it don't make sense for you, to let love pass you bye  
We've all known love didn't work out, the very first time  
there's something you can do, to ease your troubled  
mind

Ooh, wow don't let love get you down  
Ooh, wow don't let love get you down get down, get  
down
