(Ian Levine / Pamela Sheyne)

Just one look, that's all it took
There was magic
I heard you clear, I saw the signs
Just one look into your eyes
Hey baby
Just one look, that's all it took
to get me hooked
Something I began to see
when you took one look at me

One heart is a lonely game to play
Two hearts, in love that very day
Boy, you turn my world around
You turn me inside out
My life has changed and now I've found
baby, I can't do without

Just one look, that's all it took
There was magic
I heard you clear, I saw the signs
Just one look in to your eyes
Just one look, that's all it took
to get me hooked
Something I began to see
when you took one look at me

One touch, oh you know I can't resist
'cause your touch is as tender as your kiss
I'm holding on with all my might
I'll never let you go
Knowing that we've got tonight
baby, I think you know

Just one look, that's all it took
There was magic
I heard you clear, I saw the signs
Just one look in to your eyes
Just one look, that's all it took
to get me hooked

Something I began to see
when you took one look at me
Hey baby

Love, it's a language of the world
for every man and woman, every man and woman
every boy and girl, every boy and girl
Love, it's a need we can't describe
but I know, I know I've found it
right here for life, I know, I know

Just one look, that's all it took
There was magic
I heard you clear, I saw the signs
Just one look in to your eyes
Just one look, that's all it took
to get me hooked
Something I began to see
when you took one look at me
