(M. Taylor / T. Ackerman / S. Evans)

Here is a heart searching for ways
ways to help you find my love
Waiting for hours, waiting for days
Waiting just to hear you say

Love is no game
and I know you're feeling just the same

'Cause you're my light, always giving
reason for living
You are the magic
I'd follow you anywhere, I'd go anywhere
I know that you always care
'Cause you're my light in the morning
You've got me falling
You've got me calling
I'll be everything to you, I'll be everything
I'll show you what love can do

Open your eyes, open your heart
There must be a place to go
You can be sure when we're apart
I will let my feelings grow

Love's no game
and I know you're feeling just the same

'Cause you're my light, always giving
reason for living
You are the magic
I'd follow you anywhere, I'd go anywhere
I know that you always care
'Cause you're my light in the morning
You've got me falling
You've got me calling
I'll be everything to you, I'll be everything
and I'll show you what love can do
