(Gamble-Huff)

I know there must be, someone right for me
who can make me feel like I'm needed
There must be someone, underneath the sun
who can make my life be completed

I just can't go on, feeling the way I do
So I'll be looking, I'll be searching, until I find you

I'm searching for a love
Somebody to call my very own
I'm searching for a love
Now I've got to find him

Pain and misery, it's got a chain on me
won't somebody please, set me free
Set me free, day and day out
my mind is full of doubt
when will my troubled days be over

I just can't go on, feeling the way I do
So I'll be looking, I'll be searching, until I find you

I'm searching for a love
Somebody to call my very own
I'm searching for a love
Now I've got to find him
