(Stansfield / Devaney / Morris)

The only tale I have to tell
it makes me shiver when I think about
A story for my conscience
An adventure that I can't keep quiet
It's the story of a golden boy
so golden he could touch your heart
A tale about a love affair
a love affair that never stops

I love the way you laugh
the way you tantalize
I love it when you tremble
and the way you set me on fire
Set me on fire
Set me on fire
Set me on fire

Took a journey to a foreign way
and even now I think about
I think about the golden boy
the boy that made my heart run riot
If I was given half a chance
I'd go back to the golden boy
I'd carry on the love affair
carry on this golden joy

I love the way you laugh
and the way you tantalize
I love it when you tremble
and the way you set me on fire
Set me on fire
You set me on fire
Set me on fire

Fire
You set me on fire
Set me on fire
Set me on fire

I love the way you laugh
and the way you tantalize
I love it when you tremble
and the way you, you set me on fire
Set me on fire
You set me on fire
Set me on fire

You set me on fire
You set me on fire
You set me on fire
Set me on fire

Fire
You set me on fire
You set me on fire
Set me on fire

Baby, fire, on fire
Set me on fire
You set me on fire, on fire
Set me on fire
