My only son
Are you trying to leave here tonight?
Don't you go
Grow and leave into the night
I know what it's like
To know who you were
Leaving things behind
For their worth
My only love
Did someone try to leave you here tonight?
Don't you know?
To grow past this you'd have to try, but
You don't know what it's like
You barely knew who you were
Leaving things behind
For their worth
You don't know who you like
You barely knew who you were
Leaving shit behind
For your words
