Left my heart in San Again
It was lost by 10 a.m.
I've been trying to be someone
You've been hurting ever since
Hold the hand to the gears
Hold my hand when you're near
And drown me in wine
I'll feel good all the time
Been running from San Again
Always have, always will
It's a stranger that lured you in
A loved one that left you here
Hold the hand to the gears
Hold my hand when you're near
I'll act like a fool
If you treat me like a fool
Hold my hand when you're near
I will hold you so dear
I'd love to be you
I'd love to be you
