You are what brings me to my knees and from my  
sleep you wake me  
You are the ground beneath my feet and to my dreams  
you take me  
You are the one who shapes me  
You are the one who shapes me

You are what brings me to my knees and from my  
sleep you wake me  
You are the ground beneath my feet and to my dreams  
you take me  
You are the one who shapes me  
Yeah you are one who shapes me

And I can't live this life without you by my side can't  
burn out bright if you don't set me on fire on fire!

My soul's on fire with this love make the flame burn  
higher  
Love glows to guide us through the night to make the  
darkness brighter  
You set be on fire

And I can't live this life without you by my side can't live  
this live  
On fire  
On fire
