"Love Of My Life"

Visit "[Love Of My Life](#)" on MotoLyrics.com

You know me very well more than I know myself
You know the frailness of my frame
And still You show Your love in measures deep and
wide
The kindness of a king who saves

Lead me onward towards the cross, I give myself to
You

You're the love of my life, You're the arms open wide
I know Your presence is here in this place
Lord I surrender all that I am to the love of my life

Knowing my heart would fail You made a way for me
You died to set this captive free
In this You've shown Your love within my darkest hour
That's why my prayer will always be

Lead me onward towards the cross I give myself to You
That I may know You more

You're the love of my life, You're the arms open wide
I know Your presence is here in this place
Lord I surrender all that I am to the love of my life

To You, to You, to You

You're the love of my life, You're the arms open wide
I know Your presence is here in this place
Lord I surrender all that I am to the love of my life
To the love of my life, love of my life
Love of my life, love of my life
