Came flying into my life
Like a shooting star
So open hearted

then I was just a joker
But you the queen of hearts
And so we parted

But now I feel you, closing in
You pick me up and take me there

(Ohho)
Angel - show me a sign
Come shoot me with your arrow
Right through this heart of mine

Angel - show me the way
I'll walk the straight and narrow
So hit me when I say -
Oooh Angel - fly me away

If love can be forever
A minute or a day
Its no illusion

I know I'm gonna find you
Somewhere in the cloud's
Of my confusion

But now I feel you, closing in
You pick me up and take me there

(Ohho)
Angel - show me a sign
Come shoot me with your arrow
Right through this heart of mine

Angel - show me the way
I'll walk the straight and narrow
So hit me when I say -
Oooh Angel - fly me away

But now I see you, closing in
You pick me up and take me there

(Ohho)
Angel - show me a sign
Come shoot me with your arrow
Right through this heart of mine

Angel - show me the way
I'll walk the straight and narrow
So hit me when I say -
Angeeel - show me the waaaay

(Ohho)
Angel - show me the way
I'll walk the straight and narrow
So hit me when I say -
Oooh Oooh Angel - fly me awaaay
Ooohoo
