Loneliness my old friend
You've reared your head again
And it hurts
And I'm sickened to the bone
Like no one could ever know
Yeah it hurts me

And when I'm tired
I feel so blue
Nobody aches
Like I do

I'm scared
I'm unaware
I'm unprepared
And now I'm scared most all of
Never feeling good

The fear in me it takes hold
To paralyze and control my world
And I'm sickened to the bone
Like no one could ever know
Yes it hurts me

And when I'm tired
I feel so blue
Nobody aches
Like ido

I'm scared
I'm unaware
I'm unprepared
And now I'm scared most all of
Never feeling good
