[Kim]

I'm a cool hunter making you my way
Like a brand name you'll replay
I will know you I won't show you
You're the one (X4)
Heat seeking missile freak
Black magic scared to speak
I will know you I will show you
Will you buy me a shaky heart
Lust brigade has torn me apart
I will know you I will show you
You're the one (X4)
Can you send me yesterdays girl
Cuz everyday I feel more like her
Hey baby baby please don't go
Pattern recognition is coming down slow
Like a cool hunter watch the disarray
Keep yr secret footage heart away
I will know you I won't show you
Close yr eyes and feel the fun
Pattern recognition is on the run
I will know you I won't show you
You're the one (X4)
