"Revolution, Baby!"

Get the fuck up and do something
Inspire the crowd
To set it off and make a difference
Lock and load
And then I tattoo on my skin the names and faces I
have seen.
So when I die there'll be evidence left of my life.

Have you ever thought that

Maybe, there's nothing wrong with you
When it's the world that's dirty, scared and lonely
Baby, well I can show you what to do
We've got to shock the system revolution

Always count on getting nothing
When you're on your own
But when we walk these streets together
They are paved with gold
And so I take the ink again and add your legend to my
list
'Cause when I die
I want you to be on me

With this energy take the system down

Maybe there's nothing wrong with you
When it's the world that's dirty, scared and lonely
Baby, well I can show you what to do
We've got to shock the system revolution

And it all came to life
When I thought outside the lines
And it all came to life
When I thought outside the lines

And it all came to LIFE...

Maybe there's nothing wrong with you
When it's the world that's dirty, scared and lonely
Maybe there's nothing wrong with you

When it's the world that's dirty, scared and lonely
Baby, well I can show you what to do
We've got to shock the system revolution

(Rich Screams 'revolution' in the background of the
final verse)

It's getting harder to stand
And getting further to fall
But if you take My hand
We can tear down the walls

It's getting harder to stand
And getting further to fall
But if you take My hand
We can tear down the walls
